Headlight Warsun T608, 1000lm, 1200mAh, USB-C

Ref: 6976337900723

Headlight Warsun T608, 1000 lm, 1200 mAh, USB-C

Whether it's camping, hiking, or mountain adventures, the Warsun T608 is your perfect companion. This headlamp features multiple LEDs and delivers an impressive brightness of up to 1000 lumens. What's more, you can adjust both brightness and light color, and its robust construction ensures durability. Additionally, the battery level indicator allows you to recharge the headlamp on time, and the motion sensor enables hands-free operation. Plus, the adjustable light angle of up to 70° lets you customize the lighting to your needs.

Multiple Light Sources

The Warsun T608 headlamp is equipped with 2 XPG LEDs, 2 COB LEDs, and 8 SMD LEDs, offering brightness levels of 600 / 1000 / 300 lm respectively. This makes it suitable for various activities such as camping, DIY projects, or evening walks. You can also choose from 2 brightness levels, white/red strobe, and white/red continuous light.

Waterproof and Shockproof

The Warsun T608 is constructed with durable materials like ABS and PC. It is resistant to falls from up to 1 meter in height and boasts an IP65 waterproof rating. This ensures that the headlamp will not let you down even in challenging weather and terrain conditions.

Powered by a built-in 1200 mAh lithium-polymer battery, the T608 headlamp offers a runtime of 7 to 16 hours on a single charge. This means you won't have to worry about frequent recharging. When the need arises, you can replenish the device's energy using the USB-C port. It will be ready for action in approximately 4 hours.
