Warsun ET60 Headlamp, 300lm, 1x18650, M-USB

The Warsun ET60 headlamp combines sturdy construction, an efficient light source, and long operating time. Crafted from durable materials like ABS, TPR, and PC, it offers water resistance (IP45) and drop resistance up to 1m, making it highly versatile for various scenarios, from night hikes to repair work.

Robust Construction

Constructed from materials like ABS, TPR, and PC, the flashlight ensures product durability. Additionally, it is water-resistant (IP45) and can withstand falls of up to 1m, making it a reliable choice for night walks, renovations, etc.

Efficient Light Source

Thanks to XPG and COB LEDs, the Warsun ET60 headlamp provides a brightness level of 300 lumens. Whether you need to light up a path during a night run or work under challenging conditions, the ET60 will meet your expectations.

Extended Operating Time

With its built-in 18650 battery of 2200 mAh capacity, the Warsun ET60 can work for 6 to 10 hours on a single charge. You won't have to worry about frequent charging. When needed, recharge its power using a micro USB cable - after about 4 hours, it will be ready for use.

again.

Versatility and Convenience

The headlamp allows you to adjust the light angle up to 90° to suit your needs. Additionally, the Warsun ET60 is equipped with a battery level indicator, enabling you to monitor the device's status. For even greater user convenience, it has a hanging holder, proving useful during camping, hiking, or workshop tasks.
