Soocas W3 Pro Dental Irrigator

The Soocas W3 Pro irrigator will allow you to take comprehensive care of your dental health. When brushing your teeth traditionally, you often skip up to 40% of the oral cavity - a regular toothbrush can't reach everywhere. That's why it's worth using other cleaning methods as well. Using the Soocas irrigator you will comprehensively take care of your teeth and more - this is made possible by 3 modes of operation and as many as 4 interchangeable tips. The device is also easy to use and ergonomic, and it lasts up to 80 days on a single charge.

4 tips - comprehensive cleaning of every mouth

In the set you will find 4 tips that are suitable for different applications. The standard one guarantees effective daily cleaning. The tongue cleaner tip will eliminate the problem of bad breath, while the orthodontic tip will be great for braces users. The periodontal tip, on the other hand, is perfect for gently cleaning the gums. All tips rotate 360°, guaranteeing flexibility and versatile performance.

3 modes of operation for diverse needs

The Soocas W3 Pro works in 3 modes that you can conveniently change at the touch of a button. The Standard mode is ideal for everyday use - it allows for ordinary, effective cleaning. The Gum Care mode will be successfully used by novice irrigator users, as well as those who struggle with oral diseases. The last mode, Pulse, is ideal for those who wear braces. In addition, Standard and Gum Care

modes offer 3 power levels, so you can customize the device's performance to suit your needs. Choose from up to 7 options!

High performance and efficiency

The device is equipped with an intelligent chip, which is responsible for its precise yet efficient operation. The irrigator pulses at a speed of up to 1,300 times per minute, ensuring optimal cleaning. The Soocas W3 allows water to flow steadily through the crevices between teeth, so dirt is rinsed away quickly and effectively. The device removes as much as 99.9% of plaque, helping to keep your smile in excellent condition. It also reduces the risk of bleeding gums and inflammation. It also helps remove tartar and stimulates blood microcirculation in the gums, promoting oral health.

Even longer running time

You can conveniently charge the irrigator thanks to the widely compatible USB-C port. It only takes 4 hours to charge the device. After that, the W3 Pro will serve you for up to 80 days. Use the irrigator every day and don't worry about charging too often. The device's powerful battery will surprise you with its reliability.

Functional, ergonomic, waterproof

The water tank of the irrigator has a capacity of as much as 240 ml - so you don't have to refill it too often. If necessary, you can easily disassemble and clean it. The device is also lightweight and comfortable to use - thanks to its ergonomic design and curved handle it fits perfectly in your hand. In addition, it is great for traveling and will fit into any bag. The IPX7 waterproof rating means you can use the irrigator in the bathroom without worry. The Soocas W3 Pro provides exceptional comfort in use.
