

CAPSULE COFFEE MACHINE 4 IN 1 HiBREW H1A-white (white)

Ref: 5906168432552

CAPSULE COFFEE MACHINE 4 IN 1 HiBREW H1A-white (white)

HiBREW H1A-white (white) 4-in-1 capsule coffee maker.

Now you can easily prepare delicious, aromatic coffee. The HiBREW H1A coffee maker is distinguished by a pressure of 19 bars, and thanks to the technology used, it heats up quickly and stably maintains the temperature at the right level. It works extremely quietly, and its operation is extremely simple. The device is compatible with Nespresso and Dolce Gusto capsules, as well as ESE sachets, and also allows you to brew ground coffee. A stimulating espresso? Or perhaps an aromatic americano? The choice is yours!

The coffee you like

Start your day with a cup of your favorite coffee. The HiBREW universal coffee maker is compatible with Dolce Gusto and Nespresso capsules. It also allows you to brew ground coffee. You can also adjust the size of your drink - just press and hold the appropriate button. With HiBREW you can easily prepare exactly the coffee you like. Small and strong? Or maybe big, but a little weaker? You decide!

19 bars - excellent taste

You no longer need to go to a coffee shop when you fancy a velvety, full-flavored coffee. With HiBREW you can easily prepare one at your home! The H1A coffee maker features a pressure of as much as 19 bars. This allows it to bring out the best from the beans. Great taste and delightful aroma - see how delicious home coffee can be! Prepare a stimulating espresso or a velvety americano for a meeting with friends.

Fast heating - a delicious hot drink

The HiBREW H1A espresso maker is equipped with an extended stainless steel heating element, which, combined with the Thermoblock technology used and a precise temperature sensor, allows for stable heat retention. As a result, you can be sure that your coffee will be hot enough (above 88°C). What's more, the device heats up very quickly. You don't have to wait too long for your coffee - with HiBREW, your espresso will be ready in just about 40 seconds!

User-friendly

Operating the machine is extremely simple. Just fill the reservoir with water and place the capsule or ground coffee in the appropriate place. Then all you have to do is select the size of your beverage. And that's it - you are so close to a cup of hot, aromatic espresso! The device also works surprisingly quietly - its volume level is only about 68 dB. The water tank of the machine was created from high-quality materials that do not contain harmful BPA.
