

Electric cleaning brush HOTO QWQJS001, 7-in-1 set

Electric cleaning brush HOTO QWQJS001, 7-in-1 set

Ref: 6974370801304

HOTO QWQJS001 electric cleaning brush, 7-in-1 set.

Meet the HOTO electric brush and get rid of dirt effortlessly. In the set you will find 6 interchangeable tips, so you can clean different types of surfaces with unprecedented efficiency. The brush is distinguished by a torque of 2.5 N-m, which makes all stains disappear in a flash. The device is convenient to use - the removable, elongated handle will allow you to reach hard-to-reach places, and with 2 speed modes you can adjust the work to your individual needs. The product was made of high-quality materials and is distinguished by its IPX7 water resistance.

Reaches everywhere you need

The brush is distinguished by its carefully thought-out design, so you can use it even in hard-to-reach places. The handle is set at a 45° angle to the brush, so you don't have to put much effort into using it. What's more, this handle can be unfolded in the range of 90-120 cm, allowing you to comfortably reach where you need. When you remove the handle, you can use the device in the form of a handheld brush, which is great when you want more precise cleaning. The weight of the main brush is only about 0.46 kg, which significantly increases the comfort of use.

2 speeds

The product is equipped with a powerful motor with a torque of 2.5 N-m. It offers 2 speed modes with which you will adapt the brush

action to a variety of surfaces. You can choose between a gentle mode with a speed of 220 rpm and an intensive mode with a speed of 300 rpm, ideal for harder-to-clean dirt. In addition, the device does not generate much noise (up to 65 dB).

Interchangeable tips included

The kit includes a number of easily interchangeable tips, turning the HOTO QWQJS001 electric cleaning brush into a versatile tool that can be used in more than one situation. Use the flat brush in two sizes to clean large areas, such as kitchen tiles. The pointed brush will clean any corners and angles. There is also a pad adapter at your disposal, with the help of which you will clean and polish glass, kitchen stoves or wooden surfaces such as parquet floors, doors, etc.

Efficient work

One charge of the electric brush is enough for about 90 minutes of work, thanks to the 4000 mAh lithium battery. The high quality of the brush's workmanship and the sturdy nylon brush bristles are additional advantages that significantly affect the life of the device. The device also features IPX7 water resistance, so you don't have to worry about excess water harming it.
