

3in1 Ultrasonic Skin Spatula Liberex

3in1 Ultrasonic Skin Spatula Liberex

Ref: 6931446930665

Liberex Multifunctional Ultrasonic Skin Spatula

Take care of your skin and dazzle every day. The Liberex cordless ultrasonic skin spatula offers 3 modes of operation - cleansing, moisturizing and lifting. With its help you can easily improve the condition of your skin! The device works at a frequency of up to 28 000 vibrations per second and is incredibly efficient. You only need to repeat the cleansing treatment once a day and the moisturizing and lifting 2-3 times a week to get stunning results. See how little it takes to enjoy beautiful, firm skin.

Deep cleansing

Do you know how important proper cleansing is for skin care? Ordinary soaps or preparations do not always turn out to be effective - so it is worth trying better ways. Liberex ultrasonic skin spatula uses high frequency vibrations to effectively absorb negative ions. It deeply cleanses the skin, effectively treating dirt, acne, blackheads and dead skin. At the same time, it does not block pores. Simply apply the cleanser to your face, then use the product as instructed - and that's it!

Get your skin perfectly moisturized

When you have properly cleansed your skin, it is worth taking care of its proper hydration. Liberex ultrasonic skin spatula will also help you with this! Using ultrasonic vibrations, the device breaks down nutrients such as vitamin C or minerals into tiny particles, which then penetrate the deep layers of the skin. This allows your skin to absorb them more efficiently. For best results, apply an appropriate cream

to your face before using the skin spatula in moisturizing mode.

Lifting mode - enjoy beautiful, firm skin

A pleasant facial massage that will have an excellent effect on your skin? With the Liberex brand ultrasonic skin spatula it is possible! The lifting mode allows you to stimulate collagen production and firms the skin. Using it, you can, for example, model the contour of your face and smooth out wrinkles. The product also prevents skin aging and increases its elasticity. All you need to do is apply the firming cream and then perform a lifting treatment with Liberex ultrasonic skin spatula - see how easy it is!

Get beauty and save time

Skin care does not have to take up a lot of time at all! Using the Liberex brand ultrasonic skin spatula, you will quickly and conveniently take care of the condition of your skin. All 3 treatments take the same amount of time - about 3-5 minutes. This means that you only need a few moments every day or 2-3 times a week to enjoy beautiful and firm skin. Say goodbye to endless waiting and wasting precious hours - with Liberex you will take care of your beauty and save time!

Created for your convenience

The product is incredibly user-friendly. You can conveniently turn it on, turn it off or change the mode with the help of buttons located in easily accessible places. The cordless design means you don't have to search for an available outlet every time - you can easily carry out your treatments anywhere. The durable 300mAh battery ensures long battery life. Cleaning the product will not be a problem either. Note: Liberex ultrasonic skin spatula is not waterproof.
