Master Wheels 3-Axis (RH)

Ref: 6958265167263

Master Wheels 3-Axis (RH)

DJI Master Wheels is an advanced controller system that is perfect for professional applications - it will work well on a film set, for example. It allows remote control of camera movements, making it easier to create perfectly polished shots. It is compatible with devices such as DJI Ronin 2, DJI Ronin 4D, DJI Inspire 3 and DJI Transmission. Thanks to its accurate sensors, advanced algorithms and state-of-the-art design, the product can provide exceptional smoothness and precision - it will meet the expectations of even the most demanding filmmakers and photographers.
