Design & Drill Shapes Workshop Learning Resources EI-4107

Learning Resources EI-4107 toy drill with construction kit.

With Learning Resources, any child over the age of 3 can test and improve their construction skills. The set includes an activity board, drill, screwdriver, construction tiles and screws - all of which help develop children's motor skills. Note: 2 AA batteries are required to power the drill, which must be purchased separately.

Fun and education in one

The toy drill with construction kit acts as a practical educational tool. The child has the opportunity to learn the basic principles of mechanics while developing his motor skills. In addition, Learning Resources offers the opportunity to spend time creatively, stimulating the imagination and encouraging the creation of their own unique designs.

A chance for rapid development

The varied colors and shapes of the screws and construction tiles engage the child's senses, encouraging experimental and exploratory play. As a result, the Learning Resources EI-4107 set not only entertains, but also promotes intellectual and motor development, preparing the toddler for future educational challenges.

The set includes:

Board x1Drill x1Screwdriver x1Construction tiles x24Screws x44Instruction manual x1
