Design & Drill Patterns & Shapes Learning Resources EI-4108

Design & Drill Patterns & Shapes Learning Resources EI-4108

Learning Resources makes it easy for toddlers to develop creativity and construction skills. The set is designed for children 3 years of age or older and consists of a game board, drill/driver, mini screwdriver, colorful screws and activity cards. Note: 2 AA batteries are required to power the drill/driver, which must be purchased separately.

Combining fun and learning

With the drill/driver, the child can attach colorful screws to a special board to create their own patterns, shapes and images, which contributes to the development of creativity and imagination. The ability to experiment with different designs helps to take on the challenges of construction and logical thinking. In addition, the use of toy tools accelerates the development of motor skills, making it easier for the toddler to tie laces and hold a pencil.

Set includes:

Drill and screwdriver with socket tip x1

Mini screwdriver with Phillips tip x1

Board x1

Colorful screws x50

Cards with patterns x20
