Ref: 5906168432699

Design & Drill Take-Along Toolkit Learning Resources EI-4117

Drill and screwdriver toy with construction set in Learning Resources EI-4117 carrying case.

Learning Resources offers a creative construction set designed to develop fine motor skills and creativity in children ages 3 and up. Thanks to the portable design of the practical suitcase, toddlers can take all the pieces anywhere. Note: 3 AA batteries are required to power the drill/driver, which must be purchased separately.

Creative fun

The set consists of a drill/driver, colorful screws and a plate that serves as both a base for constructing a variety of designs and a carrying case. The drill/driver is used to place and tighten screws in the holes on the plate, allowing children to create their own patterns or follow instructions from the guide. As a result, little engineers can develop eye-hand coordination, planning and problem-solving skills, as well as manual skills.

Set includes:

Case/board x1 Drill/driver x1 Colorful plastic screws x60 Activity guide x1

Manufacturer Learning Resources Model EI-4117 Designed for children from 3 years old Power supply for the drill/driver 3 AA batteries (not included) Dimensions of the case when folded 23 x 18 cm
