

Artie Max Learning Resources EI-1126

Artie Max Learning Resources EI-1126

Ref: 5906168433108

Artie Max EI-1126 coding learning robot.

Artie Max is the perfect companion to learn coding. It has 5 built-in coding languages (Blockly, Snap, JavaScript, Python and C++) and is suitable for children aged 5 and up. With Artie Max, younger users can develop their cognitive skills, independent thinking and drawing conclusions. In addition, the robot offers an interface in English, which further enables foreign language practice for both the parent and the child.

A smart device for learning coding

Artie Max has built-in secure Wi-Fi, which means it can communicate directly with a connected device without the need for Internet access. As a result, children can start learning to code with simple instructions and create colorful drawings in just minutes.

Refined design

The robot offers various functions, for example, line tracking mode and remote control mode. In addition, built-in password protection and fall sensors ensure safety. What's more, colorful backlighting and beeps will let you know the status of the device's operation.

Included

robot colorful markers x3 USB-A to micro USB charging cable colorful stickers guide
