Deluxe Building Set (Set of 100) Learning Resources LER 9162

Deluxe Building Set (Set of 100) Learning Resources LER 9162

With Learning Resources, every child can step into the role of a constructor. The building set consists of 100 elements, including gears, cranks, connectors, and interlocking base plates, allowing for the creation of various mechanical structures. As a result, children aged 3 and up can develop their STEM skills, stimulating critical thinking, creativity, and an understanding of cause and effect.

Development Through Play

Playing with gears, cranks, and connectors supports the development of children's fine motor skills, enhancing their manual dexterity and motor coordination. Young engineers have the opportunity to learn basic principles of physics and mechanics, discovering how the motion of one gear affects another. Additionally, the set presents challenges that require planning and logical thinking.

Opportunity for Collaboration and Interaction

The set is perfect for cooperative play, promoting sharing and teamwork. Children can build in groups, learning cooperation, communication, and forming bonds with their peers.

Included in the Set:

Colorful Gears (blue, green, orange, red, purple) x46

Square Pillars x26
Shafts x21
Interlocking Bases x6
Crank x1
Manufacturer
Learning Resources
Model
LER 9162
Recommended Age
For children aged 3 and up
