Edifier R1280DB speakers

The Edifier R1280DB speakers successfully combine excellent sound quality and classic, elegant design. Their total output power reaches 42W, and the 4-inch bass driver provides an unforgettable musical experience. Convenient operation of the devices is ensured by the built-in rotary knobs and the supplied remote control. The speakers are equipped with two RCA inputs, an optical and a coaxial input. You can also connect to them via Bluetooth.

Stunning sound

Enjoy superior sound quality. The Edifier R1280DB 2.0 active speakers boast an RMS power output of up to 42W. They have a built-in 4-inch bass driver and a front-facing bass reflex port. This enables them to deliver a delightful, clear, deep sound. What's more, the knobs on the side panel let you customize the sound to your liking with precise volume, treble and bass adjustments.

Various connection possibilities

The speakers are distinguished by their wide compatibility and allow for a variety of connection methods. There are two RCA connectors, as well as newly added optical and coaxial inputs. You can also do without cables and opt for a wireless connection. The reliable Bluetooth connection provides fast, stable audio transmission. All this means you can easily connect the audio source of your choice to the speakers and discover your favorite tracks in a new and better quality.

Functional remote control

The kit also includes a practical remote control that allows you to conveniently operate the R1280DB remotely. With it you can, for example, turn on, turn off or mute the speakers, adjust the volume or choose the audio source. You can also control playback via Bluetooth. You no longer need to get up from the couch or armchair to switch tracks or turn down the music!

Timeless design

The Edifier R1280DB speakers not only deliver top-notch sound, but are also extremely pleasing to the eye. Their cabinet is made of 100% MDF, so it looks really good and minimizes acoustic resonance - so you don't have to worry about unwanted vibrations. Classic, elegant design makes the devices fit perfectly into almost any arrangement.
