Ref: 619659200190

Memory card SANDISK ULTRA SDXC 128GB 140MB/s UHS-I Class 10

SanDisk ULTRA SDXC 128GB 140MB/s UHS-I Class 10 memory card

The SanDisk SDSDUNB-128G-GN6IN is a memory card designed for users who require large memory spaces for data storage. With a capacity of 128GB, this card offers enough space for storing photos, videos, documents and other files. What's more, it also demonstrates resistance to external factors.

Cache memory

This card offers a capacity of 128 GB, allowing you to store a large number of photos, videos and documents. In addition, this card is compatible with microSDXC-enabled devices, so it can be used with a wide variety of devices, including smartphones, tablets, cameras and laptops.

Resistant to the elements

SanDisk is also a card that is resistant to water and temperature fluctuations, making it ideal for people who lead active lifestyles and need a reliable memory card to store data during travel, water sports or other outdoor activities.

Reliable speed

With a fast read speed of up to 140 MB/s, you can easily and quickly transfer data between devices and read files from the card. What's

more, it's compact and handy, making it ideal for those who need quick access to the data on the card.
