Edifier R1700BTs

The versatile speakers will make you want to connect any device to them for exceptional sound quality. The Bluetooth module is responsible for a constant connection, with no lag occurring. The R1700BTs have built-in digital signal processing (DSP) and dynamic range control (DRC) to prevent any distortion. They allow you to maintain a clean transmission without sacrificing performance. Plus, you can point them toward you at a 10-degree angle, making listening to music a favorite pastime.

Advanced technology

Edifier speakers use innovative Qualcomm AptX HD technology, making the sound quality even better with Bluetooth connection. While DSP (Digital Signal Processing), as well as DRC (Dynamic Range Control), effectively eliminate any distortion. Wireless connectivity provides unlimited freedom while relaxing.

Eagle Eye tweeter

With its newly developed 19mm "Eagle Eye" dome tweeters, the R1700BTs impress with a wealth of detail. The desirable dimensions and improved specifications of the "Eagle Eye" meet the highest standards and requirements of professional users. Its satisfying sound makes moody songs deep and full, guaranteeing an unforgettable listening experience.

Solid quality

4-inch bass drivers in each speaker provide smooth transitions between low and also high tones. With a front-facing bass reflex port, low frequencies are emphasized, giving the bass more power. Pair your smartphone with the functional speaker via Bluetooth. With just a flick of your wrist, you can listen to music endlessly with the R1700BTs.

Thoroughly crafted

The speaker set is sure to make a stylish, interesting addition to a tasteful interior. The classic casing with a modern finish adds an amazing character that will grab your attention. Conveniently connect any equipment through convenient dual RCA inputs. An RCA cable is also included so you don't have to worry about compatibility issues. The panel on the side of the speaker offers convenient operation and adjusts the audio signal according to your preference. You can also change music from a distance with the wireless remote control.
