Speakers 2.0 Edifier R2000DB (brown)

Edifier R2000DB

The R2000DB speakers are a great combination of classic wooden construction and innovative technological applications, responsible for high quality sound. Universal optical inputs mean you don't have to worry about connecting to most models. The included remote control makes it easy to operate from a short distance. Eagle Eye 25mm tweeters produce excellent, clear audio.

Compact size with deep interior

The 5-inch tall driver is sure to deliver plenty of memorable musical experiences. The aluminum diaphragm and 1-inch driver are designed to transform midrange and bass tones that balance tones accordingly. In addition, the class-D amplifier incorporates digital signal processing (DSP) and dynamic range control (DRC) technology. Delight in rich detail while relaxing with an exciting movie, song or game.

Convenient operation

The R2000DB comes with a practical wireless remote control. First of all, it allows you to easily switch the source, change volume or select digital modes. With its help you can mute the unwanted song with just one movement. What's more, the ergonomic design adapts to the shape of your hand without causing any discomfort.

Exceptional sound quality

The Edifier speaker set is a professional addition to computers and gaming consoles. They fit perfectly into any space, providing diverse functionality to suit individual lifestyles. The durable MDF material completely minimizes acoustic resonance. With the R2000DB speakers, you can enjoy a spectacular sound effect that completes the gaming mood.

Temporary image

Detailed craftsmanship and classic character is a successful combination that will work well in a stylishly decorated room. The glossy wooden MDF cabinet fully eliminates acoustic resonance, clearing the transmission of unnecessary vibration and noise. Connect the speakers to your turntable, TV, or laptop and immerse yourself in atmospheric, relaxing music.
