Edifier T5 Subwoofer

The active subwoofer is a great solution to complement your 2.0 speaker system. The adjustable bass and frequency response and 38Hz pass filter will bring out a wide range of sound. The 8-inch driver minimizes any latency, getting rid of distortion completely. The rugged MDF enclosure reduces acoustic resonance, leaving a clean audio transmission.

Advanced technologies

Provide yourself with a dose of the best quality sound without any hum or noise. The pass filter is responsible for the high and midrange, and enhances the deep bass with a range of 38Hz. The 8" driver with DSP system guarantees up to 70W of power. Ensure hours of entertainment as you enjoy the rich detail in your favorite tunes.

Intelligent Mode

The automatic standby feature allows you to conserve the energy you need for backup. The moment you stop using the device, the subwoofer turns off the power after a while. This makes it easy for you to leave the device plugged in without worrying about rising electricity bills.

Practical implementation

In the process of building the Edifier equipment, high quality medium-density MDF materials were used. These are responsible for, among other things, effectively reducing acoustic resonance for crystal clear transmission. In addition, the compact size and stylish finish make the T5 Subwoofer an interesting addition to many rooms.

Kit contents:

Active subwoofer

Power cable

3.5 mm to RCA audio cable

RCA to RCA audio cable

Manual

Brand

Edifier

Model

T5

Total power output

RMS 70W

Signal-to-noise ratio

≥85dB (A)

Frequency response

38Hz - 200Hz

Noise level

≤25dB(A)

Input sensitivity

50±20mV

Ports

DC, x2 RCA

Resistance

2Ω

Price:

€ 135.00

Audio, Bluetooth speakers
