Ref: 6970582640915

Edifier A80 Speakers

Enjoy the highest quality Hi-Res certified sound. The Edifier A80 speakers feature an advanced XMOS processor and allow lossless music playback even over USB. With several available ports you can easily connect the devices of your choice. They also support Bluetooth wireless connection and allow you to independently adjust the treble and bass with the corresponding knobs.

Many connectivity options

You don't have to limit yourself anymore - the A80 speakers are compatible with most common audio sources. They're equipped with ports such as optical AUX, PC and USB, which allow you to connect a wide variety of devices. What's more, reliable Bluetooth 5.0 ensures fast and stable wireless signal transmission. Pair your equipment with the speakers and enjoy almost unlimited freedom!

Modern technology for superior sound quality

What makes the Edifier A80 speakers play so well? The advanced XMOS processor and integrated USB function allows you to use the best audio sources that are uncompressed and provide lossless playback quality. The units also have an advanced Class D digital amplifier. All this allows you to enjoy crystal clear, stunning sound.

Improved solutions

This is not the end of the features prepared for you! The speakers are designed to effectively minimize distortion. So you don't have to worry about unpleasant noises. They also have an improved amplification system. Moreover, an additional output interface allows you to connect an independent subwoofer (not included). Take advantage of the possibilities offered and rediscover your favorite songs!

Get even more interesting sound

Highlight the best of your favorite music genres. The A80 speakers let you fine-tune volume, bass, and treble. There are knobs on the back panel of one of the units for that. Customize the sound to your liking and enjoy your favorite songs once again. Rock, metal or jazz - any genre can sound even better with Edifier!

Stunning design

The Edifier A80 speakers are a successful combination of fantastic sound quality and classic, stylish design. Made from MDF, the walnut-colored cabinet makes the units look really elegant and can perfectly complement any arrangement. At the same time minimizes the acoustic resonance - unnecessary vibration and grating will remain only an unpleasant memory!

Kit contents:
