Gaming headphones Edifier HECATE G2 II (black)

Ref: 6923520240685

Edifier G2 II gaming headphones

Enjoy dynamic gameplay and don't let your opponent surprise you. Edifier G2 II gaming headphones are equipped with 50-millimeter drivers that deliver crystal clear sound. The 7.1 surround sound guarantees an incredibly immersive experience, and the 6mm electret microphone allows you to communicate freely with other players. What's more, the colorful RGB backlighting gives the product a unique gaming feel.

Top-quality sound for deepened immersion

Feel like the hero of your favorite title and become even more immersed in the gameplay. The next-generation NdFeB transducer with composite diaphragm delivers clear, richly detailed high-definition audio. The headphones also offer stunning 7.1 surround sound, so you'll find your way around the game world, locate your opponents and anticipate their movements. With the Edifier G2 II, you will reach for victory with ease!

Tailored to the player's needs

Play as long as you want and don't be afraid of fatigue. Edifier G2 II headphones are distinguished by their thoughtful, ergonomic design. They are incredibly lightweight and comfortable. Specially designed earcups fit perfectly on your ears, yet are soft enough to avoid uncomfortable pressure. If necessary, you can also easily detach and clean them, thus prolonging their life and preventing the

proliferation of bacteria.

High-quality microphone - freely plan tactics with other players

If you enjoy network games, you certainly know how important communication with other players can be. To make it easier for you to communicate with other team members, the G2 II headphones are equipped with an electret omnidirectional microphone with noise cancellation. Thanks to its adjustable design, you can easily adjust it to your needs. Momentarily not needed by you? No problem! You can simply unplug it at any time.

Gaming RGB backlighting

Treat yourself to headphones that perfectly match your style. The G2 II are equipped with enhanced colorful LED backlighting. The dynamic lighting effects are sure to appeal to many users. Complete your gaming zone with a functional yet stylish accessory and enjoy every game. Gaming headphones by Edifier will help you break more records!

Compatible with your hardware

It doesn't matter what equipment you are playing on - with Edifier you can almost always enjoy the highest quality sound. The G2 II headphones are compatible with most popular devices available on the market. They work perfectly not only with computers and laptops, but also with PS4 consoles. Turn on your favorite game, put on your new headphones and set off to conquer another fantasy land!
