Speakers 2.0 Edifier HECATE G1000 (white)

Edifier HECATE G1000 2.0 Speakers (white)

Are you passionate about gaming? Opt for the Edifier HECATE G1000 2.0 speakers and enjoy great sound quality while playing games on your computer or phone. The speakers are compact and won't take up much space on your desk, plus they support Bluetooth 5.3, so they'll come in handy when playing games on your phone. They offer two playback modes (Game and Music) and impressive RGB backlighting, and their additional advantage is a modern, futuristic design.

Sound at the highest level

The 2.5-inch full-frequency drivers and 10W of power translate into detailed and crystal-clear sound. In addition, the speaker body has been inclined at an angle of 15°, which allows the sound to reach your ear directly. It is a perfect product for gamers, thanks to which they can hear every move of the enemy, as well as increase the immersion during the game.

12 lighting effects

The modern shape of the speakers works perfectly with RGB backlighting, making the G1000 the perfect addition to any gamer's desk. What's more, you can adjust the lighting to your preference and choose from 12 lighting effects at the touch of a button.

2 play modes

Edifier HECATE G1000 is an excellent proposition not only for gamers, but also for people who like to listen to music. The speakers offer two playback modes (Game and Music), so they can adjust the sound parameters and deliver clear treble and deep bass whether you're playing games or listening to your favorite songs.

Wired and wireless

If you enjoy gaming on your phone, you can take advantage of Bluetooth 5.3 and enjoy amazing sound quality. However, if you play on a computer or tablet, you can use a USB or AUX 3.5mm cable. The wired controller allows you to adjust the volume, switch the play mode or change the backlight.
