Edifier MP100 Plus Speaker

The Edifier MP100 Plus portable speaker can accompany you almost anywhere. It is extremely lightweight, yet durable and IPX7 waterproof. It has an operating time of about 9 hours on a single charge and the output power reaches 5W. Moreover, Bluetooth 5.3 provides a fast and stable connection. The speaker impresses not only with great sound quality, but also with its stylish, modern design.

Lightweight and portable

The MP100 Plus is so light and compact that you can carry it with you at all times. It weighs no more than a smartphone and is really small - it fits easily in your hand. It also comes with a special handle that you can use to attach it to your backpack or bag. What's more, the speaker is available in 2 colors - check which one you like better!

Stunning sound

Enjoy high quality sound. The MP100 Plus boasts an output of up to 5W and is equipped with a 43mm high-sensitivity driver. This allows it to deliver clear sound, rich in detail and perfect harmony. It is ideal not only at home, but also for a garden party, a beach party, a picnic or a trip.

Impressive durability

This exceptional speaker will serve you well in almost all conditions. It is IPX7 waterproof, so splashes are no problem. It is also equipped with a special fabric mesh, which protects it from dust and dirt. It is also extremely durable and resistant to falls. Take it to a beach volleyball match or on a trip out of town and let your favorite songs entertain you!

Bluetooth 5.3

Connection problems are a thing of the past! The Edifier MP100 Plus supports modern Bluetooth 5.3, which ensures incredibly fast and stable wireless transmission. It also guarantees lower power consumption. The product is also very easy to use. Specially designed buttons allow for quick and convenient disconnection of Bluetooth, turning the speaker on and off, as well as volume control.

Long operating time

Don't worry about the speaker discharging at the least opportune moment. The MP100 Plus has a built-in 1500mAh long-lasting battery that provides an impressively long runtime. A fully charged device can play music for up to 9 hours - perfect for a road trip or party! Convenient charging of the speaker is ensured by the included cable.

Built-in microphone and noise-cancellation

The MP100 Plus provides crystal-clear sound, not only when listening to music, but also during voice calls. The device is equipped with a high-quality microphone and allows you to answer the phone with just one click. It also offers an intelligent noise reduction algorithm. All this ensures that you and your caller can hear each other perfectly in almost any situation.
