

Wireless projector HAVIT PJ202 PRO (white)

Wireless projector HAVIT PJ202 PRO (white)

Ref: 6939119041113

HAVIT PJ202 PRO wireless projector / projector (white).

Do you want to create a home theater for yourself? Or do you dream of playing games on the big screen? The projector offers excellent image quality with a resolution of up to 1080 p, features a long lamp life and image brightness of 220 ANSI lumens. The device has HDMI ports, supports WiFi, Bluetooth and Android TV 9.0.

Android TV 9.0

The HAVIT PJ202 PRO projector, is compatible with Android TV 9.0, so you can project your favorite game on the big screen for the ultimate entertainment experience. What's more, you can use the projector to watch movies from Netflix or YouTube and use many other popular apps.

Excellent image quality

The wireless projector features a resolution of 1920 x 1080 p, the maximum image resolution is up to 1080 p. The brightness of the projector is 220 ANSI lumens, and the projection size is 54-200". The solutions used ensure excellent image quality, richness of details and excellent color reproduction. The device has a practical knob, thanks to which you can easily perform trapezoidal correction and eliminate errors made when setting up the projector.

Image synchronization

The PJ202 PRO allows you to connect wirelessly to a smartphone or tablet, which is a great option for all gamers. You don't need any additional receivers, just a WiFi connection to sync the two images.

Multi-projector mode

The projector allows you to reverse the image in the setup - it allows front and rear projection. You can place it on a table, attach a tripod to it, or hang it from the ceiling to save space.

High-quality sound

The product features HIFI stereo sound, which provides clear sound and extraordinary immersion while playing your favorite games. In addition, the PJ202 PRO operates extremely quietly, not exceeding 35 dB.

Wide compatibility

The device is equipped with ports; 2x HDMI, USB, AV, VGA and Mini Jack 3.5 mm. This makes the projector stand out for its wide compatibility and you will easily connect it to your computer, PS4 console, TV and many other devices.
