Ref: 6923520269990

Edifier QD35 speaker (black)

Immerse yourself in sound with Edifier. The Edifier QD35 speaker lets you enjoy fantastic sound quality certified by Hi-Res Audio. It also supports the LDAC codec and features 2 charging ports so you can recharge your smartphone or tablet. The transparent casing with colourful backlighting will delight many users.

High-quality sound

The 3" midrange driver with an aluminium cone means you can enjoy richly detailed and intense mid-range. The 1" silk-diaphragm driver, on the other hand, is all about clear and clean highs. With a total output power of up to 40W RMS, you can fill a room as large as 50 m² with sound. Take your music experience to the next level with Edifier!

Forget about distortion

Worried about distortion and poor sound quality? Don't be! The advanced TurbMuff Air Noise Suppression technology reliably reduces any noise coming from the ports. It also uses a digital DSP chipset and a TI digital amplifier. All this means that you can delight in excellent sound quality without distortion.

Different ways to connect

Listen to music the way you like it and forget about limitations. You can connect the QD35 speaker to the device of your choice either wired or wirelessly. It features a USB-A input and a 3.5 mm AUX port, so you can easily connect it to your computer, among other things. Prefer a wireless solution? Take advantage of Bluetooth 5.3, which guarantees a fast and stable connection. What's more, LDAC technology will ensure the highest quality music playback. Conveniently pair the speaker with your smartphone and listen to your favourite songs freely!

Not just for listening to music

The possibilities don't end with the QD35 speaker! Thanks to TurboGaN charging technology, you can conveniently renew the power of many devices, including your smartphone or tablet. There are two ports at your disposal - USB-C and USB-A, and the maximum charging power is 35 watts. You don't have to worry about the security of your devices either. The intelligent chip automatically adjusts the charging power, thereby preventing overcharging.

Spectacular visual effects

Light up your room with colours. The speaker features colourful backlighting that will delight you with brilliant lighting effects. The transparent design of the speaker will further enhance the visual effect. What's more, you can customise the backlighting to your liking with the dedicated Edifier Connect app.

More possibilities with the app

Want more options? Install the dedicated Edifier Connect app, which you can find in both the Google Play shop and the App Store. With it, you can sync the clock, adjust the backlight, change the EQ settings, and share them with your friends.
