Edifier W820NB Plus Wireless Headphones, ANC (blue)

Just you and your favourite songs. The Edifier W820NB Plus headphones feature dynamic 40mm drivers for crystal clear and richly detailed sound. They use hybrid ANC noise cancellation technology, which effectively reduces noise to as low as -43 dB. The built-in microphones allow for unobstructed conversations and have a runtime of up to 49 hours. The carefully thought-out design ensures dreamlike comfort.

Fall in love with music all over again

Immerse yourself in the sounds of your favourite songs. The W820NB Plus have LDAC codecs built in and have been certified for Hi-Res Audio, meaning they meet the highest audio standards. They also feature 40mm drivers with a titanised composite diaphragm, which, combined with hybrid ANC technology, will allow you to concentrate fully on the beautiful music you are playing. With the W820NB Plus, you'll feel like you're at a concert anywhere!

Talk on the phone wherever you want

Make phone calls even in extremely noisy places! The headphones have built-in microphones that will reliably record your voice. Noise-cancelling technology effectively suppresses ambient noise or wind noise. Now there's nothing stopping you from talking in a crowded shopping mall or bus.

#### With different users in mind

Choose freely from the available modes and adapt the headphones' performance to your expectations. Ambient Sound mode lets you listen to your favourite songs without losing touch with your surroundings - no more worrying about missing an important announcement at the train station! Edifier hasn't forgotten about gamers either. The headphones offer a special gaming mode, which guarantees an ultra-low latency of 0.08s. Now you won't be caught off guard by your rivals and you'll score more victories!

#### Unsurpassed comfort for a long time

The Edifier W820NB Plus headphones have been designed to provide the maximum level of comfort. The soft earcups fit snugly around your ears without causing uncomfortable pressure even during long hours of use. The adjustable headband allows you to easily adjust the headphones to your needs. In addition, the headphones impress with a modern, minimalist design, which is sure to appeal to many users.

#### You choose how you listen

Listen to music the way you like it. The W820NB Plus can work both wirelessly and wired. They use reliable Bluetooth 5.2, which is responsible for a stable and fast connection to your chosen device of up to 10 m. You can also use the USB cable included in the package and conveniently connect the headphones to your computer!

#### Up to 49 hours of operation

Now you can play music for as long as you want without worrying about your headphones draining quickly. The built-in 400 mAh battery provides up to 33 hours of use when ANC mode is on or up to 49 hours when it is off. Thanks to the quick charge function, it only takes 10 minutes of charging for you to use the headphones for another 7 hours. An LED light indicator will inform you of the charging status.

#### Everything at your fingertips

No more reaching for your smartphone every time to turn up the music or answer the phone! The W820NB Plus is equipped with several practical buttons for easy operation. You can conveniently change tracks, adjust the volume, manage incoming calls and select from available modes. Find out how easy it is!

#### Even more possibilities

Want to gain access to additional headphone features? Download the free Edifier Connect app from both Google Play and the App Store. You can use it to check battery levels, change modes and adjust EQ settings, among other things. There are also specially crafted nature sounds to help you relax after a hard day.
