Speakers Edifier Airpulse A80 (brown)

Enjoy the highest sound quality confirmed by Hi-Res certification. Edifier A80 speakers are equipped with an advanced XMOS processor and allow lossless music playback also via USB. With several available ports, you can easily connect the devices of your choice to them. They also support Bluetooth wireless connection and allow you to independently adjust the high and low tones with the corresponding knobs.

Multiple connection possibilities

You don't have to limit yourself anymore - the A80 speakers are compatible with most commonly used sound sources. They are equipped with ports such as optical AUX, PC and USB, which allow you to connect a wide variety of devices. What's more, the reliable Bluetooth 5.0 connection guarantees fast and stable wireless signal transmission. Pair your equipment with the speakers and enjoy almost unlimited freedom!

State-of-the-art technologies for superior sound quality

What makes the Edifier A80 speakers play so well? The advanced XMOS processor and integrated USB function allows you to use the best sound sources that require no compression and provide lossless playback quality. The units also have an advanced Class D digital amplifier. All this allows you to enjoy crystal clear, stunning sound.

Enhanced solutions

This is not the end of the amenities prepared for you! The speakers have been designed to effectively minimize distortion. As a result, you don't have to worry about unpleasant rasps. They also have an improved amplification system. In addition, an additional output interface allows you to connect an independent subwoofer (not included). Take advantage of the possibilities offered and rediscover your favorite songs!

Get even more interesting sound

Highlight the most interesting things in your favorite music genres. The A80 speakers allow you to precisely adjust volume, bass and treble. This is done using the knobs located on the rear panel of one of the units. Adjust the sound to your expectations and once again delight in your favorite songs. Rock, metal or jazz - any genre of music can sound even better with Edifier!

Stunning design

Edifier A80 speakers are a successful combination of fantastic sound quality and classic, stylish design. Made of MDF, the walnut-colored cabinet makes the devices look really elegant and can perfectly complement any arrangement. At the same time, it minimizes acoustic resonance - unnecessary vibrations and rasps will remain only an unpleasant memory!
