

Speakers 2.0 Edifier S1000W (brown)

Speakers 2.0 Edifier S1000W (brown)

Ref: 6923520269532

Edifier S1000W 2.0 Speakers (brown).

The Edifier S1000W 2.0 speakers are an excellent choice for audiophiles. Equipped with 5.5-inch bass drivers and 1-inch tweeters, they deliver high quality sound as evidenced by Hi-Res Audio certification, and the 120-watt power output guarantees dynamic and deep sound that will fill the entire room. With multiple available audio ports, as well as support for Bluetooth and WiFi wireless connectivity, you'll easily connect to a variety of devices.

High quality for great sound

The Edifier S1000W will surprise you with fantastic sound quality with 120 watts of Hi-Res Audio certification. The 5.5" aluminum bass drivers will deliver powerful, deep bass, while the 1" titanium tweeters will provide clear and crisp treble, allowing you to discover previously unknown details of your favorite songs. A digital Class D amplifier combined with an advanced DPS system guarantees optimal sound balance and perfect reproduction of every sound.

Solid construction and stylish design

The speakers feature a rounded cabinet to deliver powerful, rich sound. The solid design reduces resonance so you can enjoy the full experience without unnecessary distractions. Watching a movie, playing passionate games or delighting in the sound itself - unforgettable experiences are at your fingertips.

Wireless connection for your convenience

A reliable connection via WiFi and Bluetooth V5.2 will ensure an uninterrupted experience for as long as you want. With the help of the Edifier Home app, you can easily connect to your home WiFi with just a few clicks and no rush.

Multi-platform streaming

Stream music from your favorite platform! Edifier S1000W speakers support Apple AirPlay, so you can stream music directly from your iPhone, iPad or Mac. What's more, you can control the sound in multiple rooms using the Apple HomePod mini, but also Alexa, Amazon Echo and TIDAL Connect. Listening to music on Spotify? Perfect - the Edifier S1000W also support this platform.

Multiple inputs and intuitive operation

The speakers are equipped with a variety of audio ports, including optical, coaxial, PC or AUX, giving you complete freedom in choosing your audio source. You can control the Edifier S1000W with the included remote control, which is designed to make the most important volume and song change buttons easy to locate. You can also adjust the bass or treble to your taste. What's more, the speakers support audio signals with a sampling rate of up to 24-bit/192kHz.
