Speakers Edifier e25HD (red)

Ref: 6923520264674

### Edifier e25HD speakers (red)

Immerse yourself in the world of your favorite sounds with Edifier e25HD. The speakers impress with a wealth of detail and high sound quality, which is confirmed by Fi-Res certification. In addition, they connect to a compatible device in 3 different ways (Bluetooth, AUX, OPT), and are easy to operate with a touch panel and remote control (included). The Edifier Connect app, in turn, offers additional e25HD features. In addition, the set features a minimalist and elegant design that will perfectly complement almost any interior.

### Refined design - excellent sound

Edifier e25HD use a 1-inch silk-dome tweeter, a 3-inch midrange driver and 2 passive bass radiators. What's more, the refined design effectively reduces acoustic resonance and distortion. As a result, the set delivers crystal-clear, ear-pleasing treble and midrange tones and powerful, deep bass.

### Impressive Hi-Res sound quality

The speakers support audio resolution up to 24-bit/96kHz and use TI's dual Class-D digital audio amplifier. This makes the sound full of detail, while the signal dynamics control (DRC) emphasizes sounds that are too quiet and reduces the intensity of those that are too loud. As a result, the sound you listen to is equalized. What's more, support for LDAC and S/PDIF audio codecs further contributes to high-end sound confirmed by Hi-Res certification.

### 3 ways to connect and simple operation

Choose the right connection method for you. The speakers use AUX and optical ports, and with the included cables you can successfully connect them to compatible equipment. However, if you prefer wireless solutions, pair the Edifier e25HD with the device of your choice via Bluetooth 5.3. In turn, operation is facilitated by the touch panel available on the right speaker and the remote control (included).

### Edifier Connect app

Use the e25HD to its full potential. Available in the App Store and Google Play stores, the Edifier Connect app opens up new possibilities for you. From it, you can adjust the volume and use the available sound effects. A user manual for the device is also available for review.

### Included

speakers  
power cable  
power adapter  
speaker connection cable  
3.5mm to 3.5mm audio cable  
audio cable 3.5 mm to RCA  
optical cable  
cleaning cloth  
remote control

### user manual

### Manufacturer

Edifier

### Model

e25HD

### Color

red

### Peak output power

74 W

### Maximum RMS output power

Tweeters: 15 W x2, Midrange speakers: 22 W x2

### Transducer diameter

Tweeters: 19 mm, midrange: 82 mm, woofers: 82 mm

### Frequency response

50 Hz - 40 kHz

### Noise-to-noise ratio

85 dB(A)

### Audio inputs

Bluetooth, optical, AUX

### Bluetooth version

5.3

### Dimensions

113 × 213 × 222.5 mm

### Weight

3.24 kg
