

External USB audio card Edifier GS01

External USB audio card Edifier GS01

Edifier GS01 external USB sound card

Edifier GS01 allows you to connect headphones or speakers with your computer and improves sound quality for an even better gaming experience. It stands out for its wide compatibility, so you can successfully connect it to all kinds of devices. The compact design does not take up much space, and the thoughtful design ensures safe use.

Compatible

Edifier GS01 sound card is compatible with Windows, macOS and Linux, so you can successfully connect headphones, speakers microphones, laptops, computers, etc.

Refined design

The Edifier GS01 offers an additional USB input, so it will be a great replacement for your computer's inefficient sound card. What's more, it's lightweight and compact, and the durable 1.2-meter cable is protected from electromagnetic interference.

Manufacturer Edifier Model GS01 Color black Chipset HS100B Cable length 1.2 m Compatibility PC, laptop, PS4, etc.
