Ref: 6954301166412

Orico Bluetooth USB Adapter BTA-508-BK-BP

Your laptop or computer doesn't support Bluetooth? Now you can change it! The Orico USB adapter allows you to conveniently use wireless devices such as a mouse, keyboard, headphones or printer. The reliable Bluetooth 5.0 connection ensures fast and stable transmission, while the range of up to 20 meters gives you almost unlimited freedom.

Advanced Bluetooth 5.0 connectivity

Enjoy seamless transmission. The Orico adapter is equipped with an advanced RTL8761B chip, which provides a fast and stable Bluetooth 5.0 connection. It is also responsible for lower power consumption and guarantees wide product compatibility. The device is also distinguished by a range of up to 20 meters. With Orico you can get the freedom you want!

Many possibilities

Using the adapter, you can wirelessly connect many different devices to your laptop. Headphones or speakers let you enjoy excellent sound quality and ultra-low latency, while a pad allows for even more exciting gameplay. With a printer, mouse, and keyboard, you can work more efficiently. Want to quickly transfer files from your phone? Just connect to it via Bluetooth!

Fast pairing

All you have to do is pair the adapter once with the device of your choice - then it will connect automatically! See for yourself how quick and easy it is. Setting up the product is also really easy. For the adapter to work properly with Windows 7 / 8 / 10, you need to download the appropriate driver available on the official ORICO website.

Perfect in every detail

This practical adapter can accompany you almost anywhere. Lightweight and compact - you can easily fit it in your backpack or handbag. Take it on vacation, to work or on a business trip and conveniently use Bluetooth devices, wherever you go! The non-slip casing of the adapter not only protects it from falling, but also gives it a stylish, modern feel.
