Smart Plug Zigbee Homekit NEO NAS-WR15BH (FR)
Smart Plug Zigbee Homekit NEO NAS-WR15BH (FR)

Ref: 6924715901022

Homekit NEO NAS-WR15BH Smart Zigbee Nest (FR).
Enjoy convenient control of your devices. The NEO NAS-WR15BH smart socket will allow you to remotely control your connected equipment with your smartphone, and it is also compatible with the ZigBee protocol and the Apple Home, Google Home, Amazon Alexa and Tuya ecosystems. You also don't have to worry about problems with its configuration - the whole process is very simple and doesn't take too long. Nest supports most popular devices such as TVs, coffee makers and lamps, for example.

Control your devices with your smartphone
Now you can conveniently control your devices from anywhere. The NEO outlet allows you to remotely control them using an app. From it you can not only turn on or off the connected equipment, but also, for example, create a work schedule for it. What's more, with a Zigbee gateway (sold separately) you gain the ability to connect more devices together and automate their operation. Make the lights turn on by themselves when the motion sensor detects that someone has entered the room, or set the coffee maker to make delicious coffee when you get out of bed - the possibilities are almost endless!

Even more remote control options
The Nest is compatible with platforms such as Tuya, Google Home, Amazon Alexa, Apple Home and Samsung SmartThings. So you can add it to the ecosystem you use every day! You no longer have to switch between apps every time. The NAS-WR15BH also works with

Google Assistant and Amazon Alexa voice assistants, allowing you to control connected devices with simple commands. Now all it takes is a few words to turn the lights on or off, for example!

Additional amenities
With the outlet, you can monitor energy consumption in real time. This will help you learn how to better manage it, and as a result, you will save on your electricity bills! What's more, if there is an emergency, the product will automatically restore the previously saved settings when power is restored. There is also a lock function, which allows you to use the outlet in places where children are present without worry. You can also share your devices in the app with the rest of the household, so that they too can conveniently control them remotely.
