Smart PIR Motion Sensor NEO NAS-PD07W USB

Ref: 6924715901008

Smart PIR Motion Sensor NEO NAS-PD07W USB

NEO NAS-PD07W USB intelligent PIR motion sensor

The NEO NAS-PD07W smart PIR motion sensor operates on 2.4GHz Wi-Fi and features a range of up to 10m and a detection angle of 110°. The device is compatible with many popular platforms and you will successfully power it via a USB port or with a battery. A dedicated app allows you to remotely control it from anywhere and create scenarios. It also provides convenient access to notifications. The product will be a great addition to any smart home.

For the sake of security

Make sure you and your loved ones are safe at any time of the day or night. The NEO smart sensor accurately detects motion within a 10m range at an angle of 110°. If an intruder is detected, you will immediately receive an appropriate notification in the app. If an unwanted visitor proceeds to remove the device by force, you will also be informed of the situation.

Seamless connection

You connect the sensor to your router via a 2.4GHz Wi-Fi network from the dedicated app. You don't have to worry about having to use additional devices or perform complicated configurations.

Complementing your smart home

You can combine the NEO device with other smart devices, including cameras, dimmers and light bulbs. It is also possible to create scenarios. With compatibility with Tuya Smart, Amazon Alexa, Google Assistant and Tmall Genie platforms, you can control the sensor through the app or using voice commands.

2 ways to power up
With NEO, you'll be ready for unforeseen situations such as power failures. You can power the sensor via a USB port, using the included 1.2m cable. To ensure continuous operation, equip the device with 2 CR123A batteries.
