

## Flashlight Nitecore THUMB, 85lm, USB

Flashlight Nitecore THUMB, 85lm, USB

Nitecore Thumb Flashlight

You can take it with you almost anywhere! The Thumb is a compact flashlight by Nitecore, which is suitable for special situations. This flashlight can be used by people who are interested in astronomy, wildlife observation or night photography. It is equipped with white and red light. You can also adjust the angle of its light. The built-in rechargeable lithium-ion battery offers up to 22 hours of operation, and thanks to a number of safety features you can be sure that its charging is safe. Made of polycarbonate for durability and resistance to water and dust (IP65) and drops of up to 1 m.

Ref: 6952506402281

### It will light up the darkness

The flashlight is equipped with 2 light sources: white light and red light, for more freedom of use. White light you can use in case of power failure, during evening hikes, etc. The red light is great for night photography, wildlife watching, etc. With a brightness of 85 lumens and angle adjustment function, it will easily light up the darkness.

### Convenient operation

The product has 2 power buttons, with which you can turn on/off the white or red light. In addition, the flashlight offers several operating modes: low brightness level, medium brightness level, high brightness level, strobe and standby mode. This allows you to customize the

operation of the flashlight according to your needs.

#### Long runtime and safe charging

The flashlight features a long-lasting rechargeable battery that provides up to 22 hours of operation on a single charge. To renew its power, use the USB cable (not included). A red indicator indicates charging, and a green indicator indicates a fully charged battery. In addition, the flashlight is equipped with protection against over-discharge, over-charging and short circuit. In addition, charging will be automatically terminated when the battery reaches 100%.

#### Sturdy and lightweight

The Thumb model is made of polycarbonate, which is distinguished by its high resistance to drops and damage. It is also protected from the harmful effects of water and dust, so you can use it outdoors without worry. Its lightweight and compact design makes it easy to store and use.

#### Even more possibilities

No matter what you do, the Nitecore flashlight is prepared for a variety of usage scenarios. The included clip allows you to clip the flashlight to your pants pocket, backpack straps, or the visor of your hat. In addition, it is equipped with a handle, so you can use it as a key ring. Clip your car keys or house keys to it, and always have the flashlight with you. The maximum load capacity of the product is up to 35 kg!
