

## Camping lamp Nitecore LR60, 280lm, USB-C

Camping lamp Nitecore LR60, 280lm, USB-C

Ref: 6952506406654

### Nitecore LR60 camping lamp

Nitecore LR60 3-in-1 is a practical device that can act as a powerbank, battery charger and camping lamp. It supports QC fast charging and is equipped with a USB-C port. It lights up to 280lm and also offers 3 brightness levels and 2 special modes. It is extremely lightweight, durable, and IP66 waterproof, and has a runtime of up to 150 hours.

### Battery charger

With the LR60, you can conveniently charge 21700 / 18650 batteries, just use an adapter, powerbank or even solar panels. The product is compatible with multiple power sources and allows fast charging via USB-C port. It also ensures safe use - it is protected against overcharging and reverse polarity, among other things. What's more, while charging, the blue indicator will slowly flash, and when the batteries are charged, it will start glowing with a steady light.

### Practical powerbank

Now you can easily charge your phone while camping and more. The LR60 is perfect for use as a powerbank. It supports QC 18W fast charging. For example, it allows you to charge an iPhone 12 about 2 times, and a Huawei P30 about 1.5 times. It is also compatible with

other smartphone models, digital cameras, GoPro and head flashlights. Note: you need to put 1-2 charged 21700 / 18650 li-ion batteries in the device to act as a powerbank.

#### Practical camping light

Provide optimum illumination on a camping trip or during an unexpected power outage. The LR60 light is equipped with 9 LEDs. It can light up to 280lm and its range is up to 28m. Thanks to its diffuser made of high quality PC material, it provides even and soft light. The device is also distinguished by a color temperature of 4000-4500K and high color rendering index  $CRI \geq 90$ . This means that it provides eye-friendly lighting close to natural.

#### Thoughtful design

The lamp is extremely compact and weighs only 136g (without batteries). You can easily fit it in your bag and take it with you on a camping trip. You can put it on the floor or a table, or hang it anywhere with the special hook. The device has also a magnetic base thanks to which you can fix it stably to metal surfaces. The product is also very durable - it is made of durable PC material. It is resistant to falls from a height of up to 1m, and has IP66 water resistance.

#### Even more features

You will need 1-2 li-ion 21700 batteries (not included) to power the light, and it is also compatible with 18650 and CR123 batteries. Its run time is up to 150 hours at the lowest brightness level (6lm). You can also use the LR60 while charging without any problem. There is also a Location Indication feature that makes the blue indicator flash every 2 seconds, making it easier to find the lamp after dark.

#### 3 brightness levels and 2 special modes

Customize the lighting to suit your needs. The light offers 3 brightness levels - High (280lm), Mid (75lm) and Low (6lm). There are also 2 modes - SOS and Beacon. You can also choose the direction of the light to better match it to the current situation and save energy. Moreover, the device is equipped with 2 switches for convenient operation.
