

Duracell USB-C cable for Lightning 2m (Black)

Ref: 5056304399970

Duracell USB-C cable for Lightning 2m (Black)

Duracell USB to Lightning cable 2m (black)

The USB to Lightning cable by Duracell will allow you to charge your chosen devices or transfer files in a short time. It provides a transmission speed of up to 480Mbps and a charging current of up to 3A. The product is also extremely durable and wear-resistant, with a length of 2m.

Hassle-free charging

With the cable you can easily charge selected devices with Lightning interface, for example, your iPhone or iPad. The product offers a voltage and amperage of 3A / 5V, so it allows much faster charging than standard cables (2.4A / 5V). With Duracell you will save time!

Fast file transfer

You no longer have to wait too long until all the files you need are at their destination. The Duracell brand cable allows you to transfer photos, videos, music or documents at speeds of up to 480Mbps. Find out that data transfer can be even faster!

Improved design

Opt for the highest quality construction. The cable's connectors stand out for their impressive wear resistance - they will serve you well even after a long time. In addition, the copper cable ensures reliable performance and high charging efficiency, while the double nylon braid and Dupont Kevlar fiber protect the product from damage and increase its durability.

Wide compatibility

With the cable you will easily charge most devices equipped with a Lightning port. For example, the product will work perfectly with iPhones, AirPods and selected iPad models. Compatibility problems are a thing of the past - bet on proven solutions and enjoy fast charging of your equipment!
