

Smart LED light strip Gosund SL2 (5m), Tuya
Smart LED light strip Gosund SL2 (5m), Tuya

Ref: 6972391282317

Smart LED light strip

Gosund smart LED strip will give your home great and atmospheric lighting. The device has the ability to control an application that is available for mobile devices and using intelligent voice assistants such as Amazon Alexa and Google Home. The switch-off function allows you to control the lighting even when you are away from home. The device supports bandwidth WiFi 2.4 GHz.

Light to the rhythm of music

Thanks to the built-in microphone in the tape, the device can switch to a mode that will change the light to the rhythm of music. This is an interesting solution for home parties, where you can provide yourself with an additional attraction.

Diversity of concepts

The LED tape has the ability to set 8 ready-made scenes, which will help, depending on our mood, to transform the house into a lively and diverse environment. Lighting is great for the bathroom, kitchen, living room, ceiling, staircase, desk and TV.

Don't limit yourself

With the application, you can create a group of tapes that can be controlled at once. This solution saves us time when we want to unify the lighting at home. The tapes can be controlled from different devices. To gain control over them, all you have to do is share them with

others.
