SVEN PS-55 Speaker, 5W Bluetooth (black)

The SVEN PS-55 speaker catches the eye with its rounded chassis and dynamic multi-color RGB backlighting. The 45 mm transducer generates sound in a wide range from 120 Hz to 20 kHz. The 600 mAh battery provides up to 10 hours with the backlight on. With an output power of 5 watts, the device is great for listening to your favorite tunes at home, as well as creating the right mood during outdoor activities. In addition, the Bluetooth wireless connection allows you to connect 2 speakers to a single sound source. Also noteworthy is the built-in radio receiver and player, supporting audio files from a USB drive and microSD card.

Hear even more

With an output power of up to 5 watts RMS, the speaker will fill the space with sound, allowing you to enjoy an immersive experience. With a frequency range of 120 to 20,000 Hz, it provides a wide spectrum of sound - from low bass to melodic treble, so you'll appreciate the depth of each note and the realism of the sound. The device also features a 45mm driver for better low and mid-frequency reproduction. In addition, with support for TWS technology, the speaker can be paired with a second speaker of the same model, creating an even more powerful and spacious stereo sound.

Lighting effects

Get ready for an unforgettable dose of great fun at your next party! The SVEN speaker offers interactive RGB colorful backlighting that

will greatly enhance your entertainment. The delightful light attracts attention both during the day and at night, creating an amazing atmosphere. Enliven any gathering with a variety of colors and give your guests an unforgettable experience!

Listen the way you like

Sound from the source device is transmitted via Bluetooth technology - you can enjoy a stable wireless connection over a distance of up to 10 meters. If you want to save battery power, you can use the included cable to make the device work wired. And if you feel like listening to fresh music hits or relaxing with news and entertainment programs, just turn on the built-in radio receiver. To activate Radio mode, connect the included external antenna. You can also connect a USB drive or microSD card to the device.

10 hours of entertainment

Enjoy delightful sound without limits. The SVEN speaker is equipped with a 600 mAh rechargeable battery for up to 10 hours of use. From now on, your favorite songs can accompany you at all times - on the road, during relaxation at home, as well as outdoor activities.

Innovative design

Finnish designers have gone to great lengths to create a speaker that will attract admiring glances from people around. As you can see - the plan definitely succeeded. The device is distinguished by its original design. In addition, its dimensions are only 72 x 72 x 108 mm, and its weight does not exceed 230 g, so you can comfortably take it wherever you want.
