

Powerbank Duracell DRPB3020A, Micro5 5000mAh (black)

Ref: 5056304398577

Powerbank Duracell DRPB3020A, Micro5 5000mAh (black)

Duracell Powerbank DRPB3020A, Micro5 5000 mAh (black)

Charge your device no matter where you are. The Duracell powerbank allows both wired and inductive charging, and thanks to special safety features it ensures stability. What's more, the lightweight and compact design means the powerbank doesn't take up much space, and the fold-out stand allows you to use your device comfortably while charging.

Convenient charging

Charge your smartphone or tablet as you are comfortable. The Duracell powerbank supports MagSafe 7.5W, so you can safely charge your device wirelessly. However, if you opt for traditional solutions, use the USB-C port - a charging cable is included. It is also possible to charge 2 devices simultaneously.

User-friendly

The Duracell Micro5 offers a fold-out stand so you can comfortably make video calls or watch movies while charging wirelessly. What's more, the powerbank doesn't block access to your device's screen, speaker and camera, and the 4-stage LED indicator will provide you with information about the DRPB3020A's battery level - always renew its power on time.

Refined design

Use your Duracell powerbank comfortably and safely. The product is protected against overcharging, over-discharge, overheating and overvoltage. What's more, the lightweight and compact design makes it easy to transport and store - you can also use your smartphone while charging. In addition, the product complies with general safety standards, and you can take it with you on a plane.

Included
