Ref: 6974760352362

SuperFire RAB-02 Little Rabbit Children's Night Light

SuperFire RAB-02 Little Rabbit Children's Night Light

Create perfect sleeping conditions for your little one. The charming SuperFire children's night light offers 2 operating modes, and its operation will not be difficult for the little one. Thanks to its efficient battery, the device can subtly illuminate the room for up to 56 hours on a single charge. The product dimensions are only 96 x 113 x 147 mm, and it weighs no more than 162 g – so the child can easily carry it. Skin-friendly silicone is used for production, which does not cause allergic reactions.

Reliable Night Light Sources

Does your child dislike sleeping in the dark? Provide them with a friendly light source! The SuperFire lamp will provide the child with a sense of security – you can choose from 2 operating modes. Depending on current needs, the device offers intense or subtle lighting, ensuring excellent conditions for both evening reading and sleep. Little Rabbit uses a color temperature of 4000K, helping to create a cozy atmosphere.

Always Ready for Work

The Little Rabbit night light is equipped with a high-capacity 1200 mAh battery, which provides from 16 to 56 hours depending on the selected operating mode. The time required to charge the device is up to 4 hours. This way, you can easily ensure that your child can sleep peacefully, enveloped in friendly light. The indicator light informs about the device status.

Excellent Choice for Children

Are you dreaming of peaceful nights? Give your child the Little Rabbit lamp! The device is exceptionally light - weighing only 162 g. Its dimensions are 96 x 113 x 147 mm, so your little one can easily carry it to illuminate their way during a night visit to the kitchen or bathroom without waking you up. Moreover, the friendly design will surely delight every little one, and the silicone material used is gentle on delicate skin.

Intuitive Operation

The practical switch makes operating the device easy - with its help, you can, among other things, turn the power on or off, and also start a timer that automatically turns off the light after 20 minutes - this way, you will provide your child with lighting while falling asleep, while saving battery power. Adjusting the brightness level is done by touching or squeezing the rabbit.
