

## 2-in-1 induction charger for Apple Watch / Lightning Joyroom

2-in-1 induction charger for Apple Watch / Lightning Joyroom S-IW002S 1.5m (white)

Ref: 6941237150912

2-in-1 inductive charger for Apple Watch / Lightning Joyroom S-IW002S

Now you can conveniently charge your iPhone and Apple Watch at the same time. The Joyroom S-IW002S cable is equipped with a Lightning connector and a small inductive charger, allowing you to charge 2 devices simultaneously. It ensures safe use and is extremely durable, yet lightweight and portable. In addition, the charging current for iPhones reaches 3A.

Fast charging for your Apple Watch

The cable is compatible with Apple Watch series 1, 2, 3 and 4. With its help you can charge your device without any problems! What's more, charging your smartwatch won't take long. To charge it from 0% to 12%, you only need about 10 minutes. To 100% you will charge it in just about 2 hours. The product is also equipped with a magnetic module, which is distinguished by a pulling force of up to 2,500N. This will provide the Apple Watch with the necessary stability. You don't have to worry that your smartwatch will move!

Hassle-free charging of 2 devices simultaneously

With Joyroom you can comfortably use your smartwatch while charging. The length of the cable with the inductive charger is 1.2m, and the length of the cable with the Lightning connector is 1.5m. So you can connect your Apple Watch and iPhone to the cable, and then watch a movie or play your favorite mobile game. Nothing will limit you! In addition, the tin-plated copper cable guarantees more stable transmission and faster charging.

#### Thoughtful design

High-quality materials such as stainless steel and TPE were used for the cable. As a result, the product is extremely durable, yet flexible. It will serve you perfectly for a long time. What's more, the cable is so light and handy that you can always have it with you.

#### Safe use

Enjoy safe charging of your devices. The cable is equipped with a smart chip, thanks to which it protects the batteries of connected equipment from damage. You also don't have to worry about the product overheating. The S-IW002S uses advanced technologies that regulate its operation to keep the temperature at an optimal level.
