

## Multifunctionale remote control Dareu LK173 for presentation

Multifunctionale remote control Dareu LK173 for presentation with a laser pointer 2.4G

Ref: 6950589904579

Multifunctional remote control Dareu LK173 (with laser pointer) for presentation

Make your lectures or presentations easier. The Dareu LK173 multifunction remote control lets you switch slides, adjust the volume and has a laser pointer with a range of up to 100m. The device connects to a computer using 2.4G bandwidth and only needs one AAA battery (included) to be powered.

Many possibilities

The multifunctional remote control Dareu LK173 will come in handy for people who often give presentations, demonstrations or lectures. Simply connect it to your computer to switch slides and adjust the volume with easy-to-use buttons. Moreover, the laser pointer with a range of up to 100m will make it easier for you to show your audience specific elements and help you attract their attention.

User-friendly

The remote control is exceptionally easy and comfortable to use. It is very lightweight and fits perfectly in your hand. Connecting it to your computer is no problem either - just use the included 2.4G receiver. The wireless transmission range of the device is up to 10m. In the package you will also find AAA battery, which is necessary to power the remote control and ensures long operation time.
