

Smartwatch Blitzwolf BW-AT3 (silver steel)

Smartwatch Blitzwolf BW-AT3 (silver steel)

Ref: 5905316148727

Blitzwolf BW-AT3 (silver) smartwatch.

The Blitzwolf BW-AT3 is a smartwatch in an eye-catching silver finish. It's not just an elegant accessory, but above all a practical device that makes everyday life easier. It offers advanced features and connects to your phone via Bluetooth version 5.0, ensuring a stable and fast connection.

For the sake of your health

The smartwatch is also equipped with functions to monitor your health, such as measuring blood pressure, blood oxygen levels and dynamic heart rate. A pedometer and calorie measurement will help you keep track of your physical activity, and with the built-in GPS, you'll be able to track your routes while running or biking. What's more, sleep monitoring will take care of the quality of your rest.

Sport modes and reminders

BW-AT3 offers more than 100 sports modes, including walking, running, swimming, basketball, soccer, badminton, tennis and more. Reminders to stay inactive for too long, to drink water or to do breathing exercises motivate you to lead a healthy lifestyle. With BlitzWolf, you'll feel better!

Communication without borders

The BW-AT3 offers the ability to sync up to eight contacts from your phone book for quick access to the most important people in your life. Bluetooth version 5.0 provides a stable and fast connection for convenient communication. In addition, thanks to the push function, you will be kept up to date with notifications from your smartphone.

Performance and compatibility

With a battery capacity of 220 to 300 mAh, 1GB RAM and 4GB ROM, the BW-AT3 smartwatch provides smooth operation and enough memory for your apps and data. It is compatible with all smartwatches, making it a versatile solution for any user. With an IP67 waterproof rating, the smartwatch is ideal for use in all conditions, whether you're at the gym or out walking in rainy weather.

User-friendly

Featuring a 1.35-inch circular touchscreen with 390 x 390 pixel resolution, the smartwatch provides a crisp and bright display. It offers a choice of multiple dials, allowing you to customize the look of the watch to suit your personal style. What's more, with multi-language support, the BW-AT3 is accessible to users from different regions, and its additional features such as call answering and camera remote control make daily activities even easier.

Constantly on guard

The BlitzWolf BW-AT3 is equipped with a 250mAh battery, guaranteeing a long life and continuous monitoring of your activity. Depending on the mode selected, the device provides 3 to 10 days of operation without recharging, making it the perfect partner for long trips or busy days full of activities. In standby mode, the battery can last up to 15 days, allowing for infrequent recharges and continuous use of the watch's functions.
