ONIKUMA X22 gaming headphones (black)

Stock up on the right gaming headphones and get an edge right from the start. The X22 by ONIKUMA offers large 50-millimeter drivers that guarantee excellent sound quality. It also stands out for its ergonomic design and colorful RGB backlighting. Its added advantage is a built-in noise-canceling microphone that will allow you to communicate freely during gameplay.

Immerse yourself in gameplay

Now you can further immerse yourself in the world of your favorite game. The X22 headphones are equipped with 50mm drivers to deliver crisp, detail-saturated stereo surround sound. Clear highs, ear-pleasing mids and powerful, deep bass - all of which will help you get even more out of the game. Hear your incoming opponent with ease and don't be surprised!

RGB backlighting

If you value in equipment not only functionality, but also interesting design, the ONIKUMA X22 headphones are sure to appeal to you. They are equipped with dynamic RGB backlighting, which gives them an original gaming character. This allows them to become a perfect addition to your gaming zone!

Omnidirectional microphone

If you enjoy playing online games, you surely know that proper communication between players can be crucial. The X22 headphones will help you with that! They are equipped with an adjustable noise-canceling microphone that will accurately record your voice. So you can easily plan your next matches, warn other team members of threats and exchange comments.

Lightweight and comfortable

Enjoy unsurpassed comfort even during prolonged games. The headphones weigh only about 364 g - they won't weigh you down excessively. They are also equipped with protein leather earcups, which are resistant to wear and adhere perfectly to your ears without pressing them. What's more, the adjustable headband can self-adjust to the shape of your head, and the easily accessible buttons will allow you to conveniently control the volume and mute the microphone.

Wide compatibility

No matter what devices you use most often - ONIKUMA headphones will provide you with excellent sound quality in almost any situation. The X22 is compatible with many popular devices, such as smartphones, tablets, laptops, computers, as well as selected Nintendo and PlayStation consoles. You don't have to limit yourself!
