ONIKUMA X7 PRO Gaming headset (Black)

ONIKUMA X7 PRO gaming headphones (black)

Ensure excellent sound quality while listening to music, watching movies or playing games. The ONIKUMA X7 Pro headphones offer 40-millimeter drivers, so they can guarantee clear, ear-pleasing sound. They are also distinguished by their ergonomic design and colorful RGB backlighting. There's also a noise-canceling microphone that allows you to communicate freely with other players.

Great sound quality

Hear every detail of your favorite songs or further immerse yourself in the world of your favorite game. With high-end 40mm drivers, the X7 PRO headphones deliver stunning, crisp stereo sound and clear, natural sound. Experience unforgettable emotions and in your own room feel like you're in the center of exciting events!

Communication at the highest level

Do you often play network games with friends? Or do you happen to participate in video conferences? The X7 Pro headphones will certainly come in handy for you! They are equipped with an omnidirectional noise-canceling microphone, which will perfectly record your every word. You can also freely adjust its position. With ONIKUMA you can be sure that your interlocutors will hear you without any problems!

Improved design

Do you happen to spend long hours listening to music or playing games? With X7 PRO you don't have to worry about fatigue! The headphones are equipped with soft earcups made of breathable, perforated protein leather, which are very comfortable and fit perfectly on your ears without pressing them. What's more, the adjustable headband with foam padding guarantees an extra level of comfort. Another interesting feature of the X7 PRO is the colorful RGB backlighting, which gives it a modern, gaming feel.

Compatible with your equipment

The headphones are equipped with 2 connectors - USB-A and 3.5 mm jack. You'll also find a 3.5mm audio adapter included. All this makes the X7 PRO compatible with many popular devices - from selected Nintendo and PlayStation consoles, to smartphones, to laptops and computers. Forget about limitations!
