

Camera Akaso V50X

Camera Akaso V50X

Ref: 818537029445

Akaso V50X sports camera

Create unique frames and capture dynamic shots. You'll be helped by the Akaso V50X sports camera, which provides excellent stabilization and high quality images on the move. The device is equipped with a 6-axis gyroscope and a 2-inch touchscreen, plus it allows convenient remote operation via an app and the included remote control. The V50X records in 4K 30 FPS quality and shoots 20 MP photos, offers 4x zoom and you can submerge it to a depth of 40 meters without worry.

High quality dynamic shots

The Akaso V50X sports camera is equipped with an internal 6-axis gyroscope, which ensures high image quality during dynamic motion shots. So you can capture your downhill skiing or record tricks on your board and enjoy clear, sharp images with rich detail.

Convenient operation

The Akaso V50X is designed for maximum comfort during dynamic activities and extreme adventures. Thus, at your disposal is a practical remote control, with which you can manage the operation of the device without using its interface. A 2-inch touchscreen and a special app are also a plus.

For all conditions

Heading to the mountains? Or maybe you want to take the V50X on a deep-sea dive? The device has a waterproof design, so you can submerge it at depths of up to 40 meters. What's more, the camera is highly resistant to damage, so it will perform well in any location and even extreme conditions.

Creative solutions

The Akaso sports camera offers a number of interesting modes to create original footage. You can use Time-Lapse or Motion Time-Lapse functions, in addition, Slow Motion, Car mode or Loop video modes are at your disposal. The device also offers several shooting modes, such as Interval shooting or Continuous shooting.
