

## Waterproof Bicycle Light Rockbros R1-400

Ref: 5905316140578

Waterproof Bicycle Light Rockbros R1-400

Bicycle light, waterproof Rockbros R1-400

Rockbros R1-400 is a waterproof bicycle light that can also function as a flashlight. With its help you will increase your visibility on the road and provide illumination in the dark. The device shines with a brightness of up to 400lm and offers 4 modes to choose from. It is equipped with a 2,000mAh rechargeable battery, which guarantees a long operating time, and thanks to its aluminum alloy casing it is extremely durable.

Optimal illumination

The lamp generates high-quality light with a brightness of up to 400 lm and a range of up to 200m. As a result, it will provide you with optimal illumination when cycling after dark, and it will also work well as a flashlight. You can also choose from 4 light modes, so you can easily adjust the operation of the device to your needs. Increase your visibility on the road or draw attention to yourself and ask for help if needed!

Robust, waterproof design

Bet on high quality workmanship and choose a bike light that will not let you down. The R1-400 is equipped with a solid aluminum alloy housing, making it impressively resistant to scratches, devices and wear. The device is also IPX6 waterproof. Even if you get caught in a downpour during a trip, nothing will happen to it! You will also find a practical mount included, with which you can easily attach the light

to your bike.

#### Durable battery

Don't worry that the light will discharge at the least opportune moment. The device has a built-in durable 2000mAh battery that ensures long runtime. To charge it, simply connect it to a charger, powerbank or even your laptop using the included USB cable. A colored light indicator will notify you of the charging status. What's more, an advanced chip has helped reduce power consumption, so the light can last even longer!
