BlitzWolf BW-VP8 projector / projektor (white)

Watch your favorite movies or play games on the big screen with the BW-VP8 Wi-Fi projector with Bluetooth. The 720p resolution and brightness of up to 5500 lm will provide excellent picture quality, while the 4Ω3W sound will let you hear every detail clearly. Adjust the display size to your expectations. With multiple ports and wireless connectivity, the product also stands out for its wide compatibility.

Picture at the highest level

BW-VP8 will surprise you with the quality of the displayed image. The HD resolution will make you see every detail, and up to 16.7 million colors will let you delight in the vivid, natural colors. The device also supports 1080p decoding. What's more, very high brightness and a contrast ratio of 2000:1 ensure clear, crisp images even in bright environments. At the same time, the projector is eye-friendly - LED lighting with a lifespan of up to 40,000 hours is responsible for this.

Connect your devices freely

Connect your phone to the projector to comfortably play mobile games or watch series and movies. You'll pair Android smartphones with it wirelessly. You can also connect your iPhone with a cable. The device is additionally equipped with several ports, such as USB, AV, Audio and VGA. BW-VP8 features wide compatibility.

A musical feast especially for you

Delight in audio at the highest level with SRS sound technology. The crystal clear, natural, richly detailed sound will perfectly complement the excellent picture quality. The projector is compatible with wireless devices and will give you a real musical feast. With Blitzwolf, you will immerse yourself in a world of stunning stereo sounds.

Customize it to your needs

Using the projector, you will manually adjust the focus and shape of the image, precisely correcting any distortion. You can also set the size and distance of the projection in the range of 1.5-5 meters and 50-150°. You can also place the device anywhere and in any position - set it on a table or hang it from the ceiling, for example. All this makes it suitable for use in both small and larger rooms.
