

IP Smart FloodLight Camera Gosund IPC3, IP65

IP Smart FloodLight Camera Gosund IPC3, IP65

Ref: 6972391287725

Wi-Fi smart outdoor camera with Gosund IPC3 floodlight, IP65

Now you can take even better care of your home security. The Gosund IPC3 outdoor camera provides high-quality images in 1080p resolution, and has been equipped with a motion sensor - when someone comes within its range, you'll know immediately. The device also has a built-in floodlight and offers 3 night vision modes. The product is also compatible with Tuya Smart and Google Assistant. It is also distinguished by its IP65 rating, so you can mount it outdoors without worry.

High image quality

Keep your hand on the pulse and be sure not to miss a single detail. The IPC3 camera supports high resolution Full HD (1080p), so it can provide clear, detail-saturated images in almost any conditions. There are also 3 night vision modes at your disposal - Infrared, Full Color and Smart. Customize the device's performance to suit your needs and keep your home safe at any time of the day or night!

Motion detection

With Gosund, you don't have to worry about someone suspicious being near your home, and you won't know anything about it. The IPC3 camera is equipped with a floodlight and motion sensor, which is distinguished by a wide detection angle of 110°. If someone appears within its range, the device will automatically turn on the light and take a photo, and then send you a notification to your phone. This will give you time to react!

2-way audio

Thanks to the built-in speaker and microphone, the camera allows you to conveniently communicate via the Tuya app. So you can easily tell the courier to leave a package at the door, greet unannounced guests or tell your child to take food out of the freezer.

Improved design

Mount the camera outdoors without worry - thanks to its IP65 rating, it is not intimidated by rain and adverse weather conditions. The device also allows you to conveniently store recorded footage - you can save it on a microSD card or in the cloud.

Convenient operation

The camera is compatible with Android and iOS, so you can conveniently operate it from your smartphone or tablet. It is also possible to control the device with a computer. The IPC3 also works with Google Assistant. Now, with just a few words, for example, you can check what's happening at the door to your house!
