

Car Charger USB-A+USB-C 100W Essager (black)

Ref: 6975253972142

Car Charger USB-A+USB-C 100W Essager (black)

Car Charger USB-A+USB-C 100W Essager (black)

With the Essager product, you can conveniently charge 2 devices on the go simultaneously. The charger offers 2 charging ports (USB-A, USB-C) and supports PD fast charging protocol. What's more, it stands out for its wide compatibility and ensures safe use.

Fast, convenient charging

Save time on long-term device charging. The charger's USB-C port uses PD 65W power, so it will quickly renew your laptop's energy. When using 2 ports simultaneously, the charger's power reaches 100 watts. You can successfully connect it to your smartphone, tablet, headphones, car navigation, Nintendo Switch console, etc. In addition, voltage support in the range of 12-24V allows you to connect the charger in most vehicles.

Special safety features

Charge your device without worrying about damage. The charger is equipped with protection against overcurrent, short circuit, etc. It also intelligently adjusts the amperage to the connected device, and the aluminum alloy finish ensures good heat dissipation and protects the charger from overheating.

Thoughtful design

Essager ECCAC-QTZ01 is designed to provide stability even during harsh conditions. It sits securely in the cigarette lighter socket, ensuring smooth operation even when driving on a bumpy road. What's more, thanks to its lightweight and compact design, it doesn't take up much space in the car.
