Code & Go Robot Mouse Activity Set Learning Resources LER 2831

Portable speaker with microphone Frozen by Lexibook

Discover a magical world of music and fun together with the Frozen speaker from Lexibook! The device provides clear and powerful sound that will fill any room with the magic of music. Thanks to its wireless Bluetooth connection, it allows you to conveniently stream music from any device, and the available ports guarantee versatility during playback. The included microphone allows your child to sing their favorite songs, giving them a chance to feel like a real star of the stage.

Organize karaoke in the comfort of your home

Give your child the opportunity to discover their musical talent! With the included microphone, kids can sing their favorite songs or arrange their own karaoke parties. It's a great way to develop creativity and confidence in little ones, while providing plenty of fun for the whole family. What's more, you can connect two speakers together for even better results.

Choose your playback method

The speaker uses Bluetooth, which means you just have to pair it with the device of your choice to enjoy your favorite songs and stories from the movie, without any restrictions. But that's not all! This versatile speaker offers even more playback options. Plug a flash drive

into the USB port, insert a TF card into the slot, or use the AUX input to effortlessly play your music collection from a variety of sources.
