

Joyroom PN-15B1 Glacier Case for iPhone 15 (clear)

Joyroom PN-15B1 Glacier Case for iPhone 15 (clear)

Ref: 6976788020605

Joyroom PN-15B1 Glacier Case for iPhone 15 (transparent).

Bring a touch of elegance into your life with Joyroom. The Glacier Series case is distinguished by high-gloss crystals, which are precisely arranged at the phone's lens. High-quality materials were used for its construction, ensuring resistance to wear marks, so your iPhone 15 will always look aesthetically pleasing.

High-quality crystals

The Joyroom Glacier case was inspired by the beauty of glaciers. The selected high-gloss crystals that adorn the accessory come from the same factory as the famous Swarovski crystals. Thanks to hand inlays and the use of advanced techniques, every detail has been perfected.

Durable materials

German Bayer materials were used in the production of the Joyroom Glacier case, which managed to ensure durability and resistance to yellowing. The innovative AR coating, which was made using nanotechnology, along with oleophobic coating provides protection against grease and fingerprint marks - as a result, the accessory always looks aesthetically pleasing.
